Canals & intimate rivers

Contemporary art features large along the Loire's long estuary and this stage shared by the Loire à Vélo and Velodyssey cycles routes. The installations are startling, set in unusual locations. They offer joyous surprises close to the city of Nantes.

Itinerary

On the right-hand bank of the Loire, the cycle routes are currently uneven: cycle strips and lanes. Traffic is particularly heavy here, so **caution**.

Alternative and connections

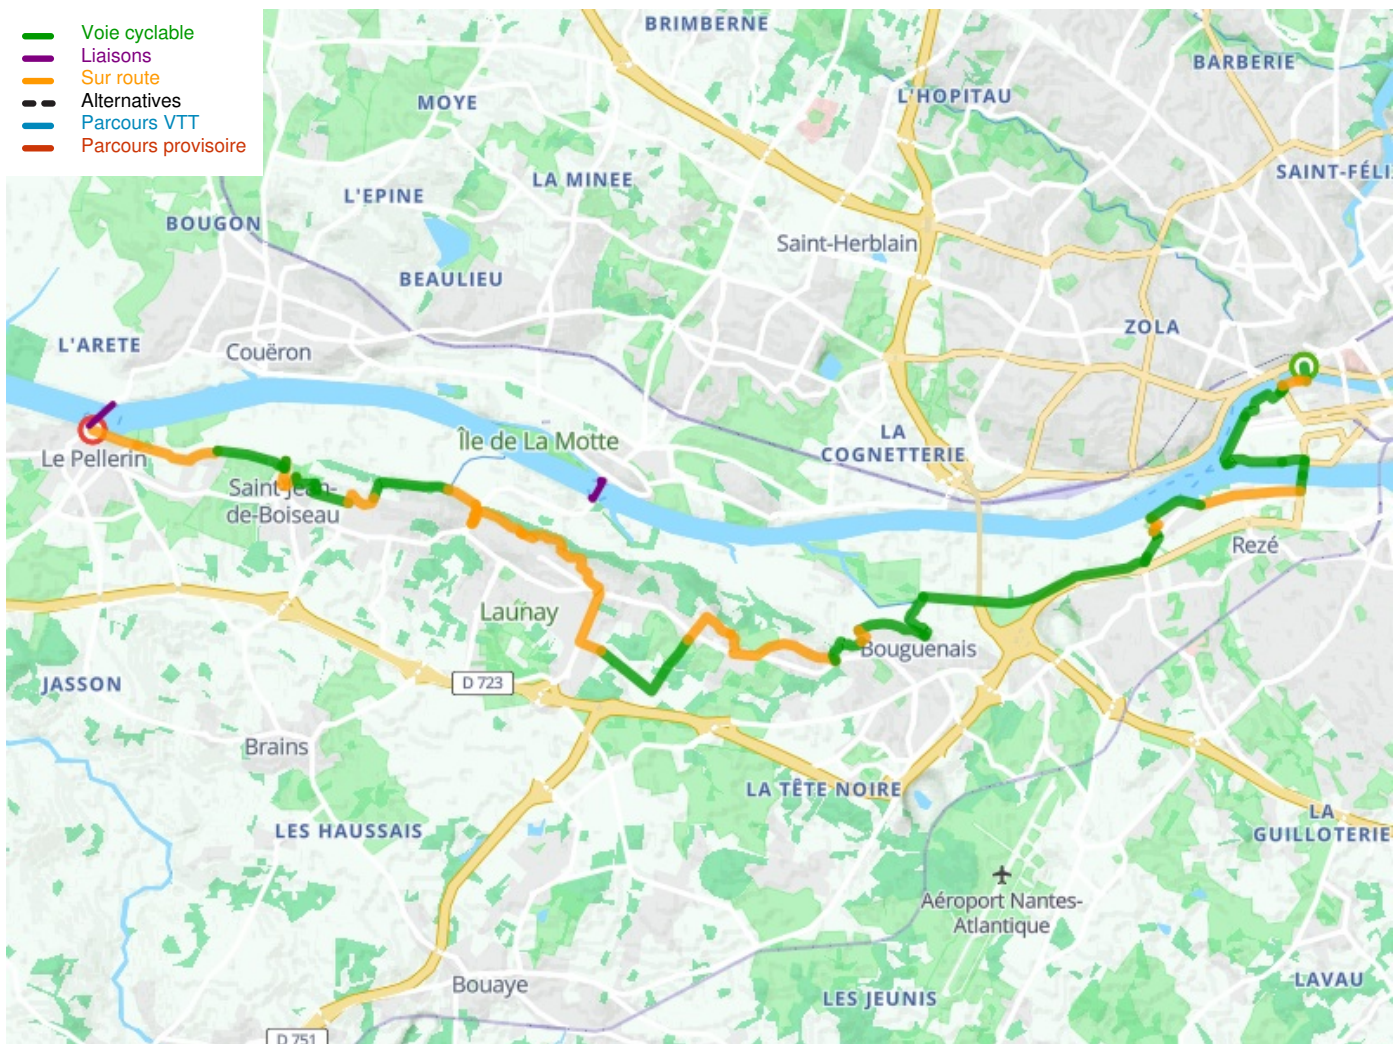

A route south of the Loire is currently under development - from Île de Nantes > Trentemoult > Bouguenais > La Montagne > St-Jean-de-Boiseau > Le Pellerin. This will, in particular, allow the discovery of another part of the perennial works displayed on the Estuary as well as a more natural Loire.

Connections on the route towards stations.

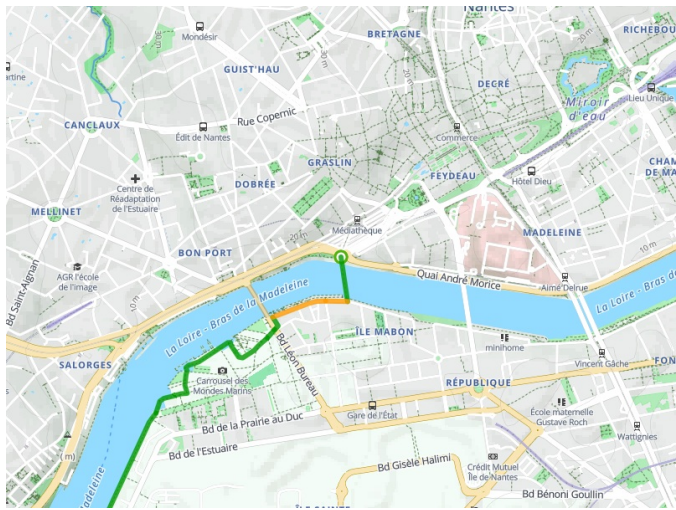

ATTENTION: the ferryboat does not work on May 1st.
