Canals & intimate rivers

The Canal des 2 Mers à Vélo cycle route leaves Moissac via the Pont-canal du Cacor, a remarkable canal-bridge. Not long after, you reach a business park at the entrance to Castelsarrasin, an historic fortified town in the County of Toulouse. From its marina, you can head into the old centre that witnessed many turbulent times, but that has preserved many fine public spaces and buildings, including the imposing St-Sauveur Church, built of fine brick.

### The route

The towpath leads you without any difficulties right up to Montech port. Just before the latter, do go and take a good look at the extraordinary sloping lock where curious old locomotive engines slumber.
