This iconic Tour du Jura Vélo Sport stage through the heart of the Parc Naturel Régional du Haut-Jura leads cyclists to the climb up Septmoncel's famed hairpin bends. Featuring repeatedly in Tour de France stages, this remarkable ascent links Saint-Claude, capital town of the Haut-Jura area, to the Jura ski resort of Les Rousses. Guiding riders through impressive limestone gorges, high-altitude forests and deep valleys known as combes, this beautiful cycling stage also provides the opportunity to learn more about Jura craft traditions in the museums at Saint-Claude, Lajoux and Lamoura.

Cycle route from Les Piards to Lamoura

After a stretch on quiet little roads along the Plateau du Grandvaux, there's a steep, winding descent to Les Près-de-Valfin, then you join the D437 road, which is much busier, as well as being winding (take care), to coast on to Saint-Claude. In Saint-Claude, take the direction of Septmoncel's hairpin bends ("lacets" in French) via the D436. This mountain road is very steep, with an average gradient of 4.5% over 16km, plus it has very many bends and can be very busy at rush hour. Take care, therefore, cycling as far as Lajoux.
